

INFINIUM DATA SQL MIGRATION

HOW DO YOU ACCESS YOUR INFINIUM DATA GOING FORWARD?

Many customers moving off Infinium find themselves in a tough position. How do access your historical data going forward?

This issue looks simple until you spend countless hours trying to export the data into a useable format. Given Infinium is not in a Relational Data Base this task is much more difficult than one would first think.

PROVEN SOLUTION

TCI has a proven fixed one time cost solution to extract all history into a Relational SQL database. This will allow for PC based access to all historical data using 100's of Query and Business Intelligence Packages.

Some of the most commonly used packages include;

- SQL Reporting Services
- Crystal Reports
- Cognos BI
- Hyperion
- Oracle Reports

Supported;

- Infinium Payroll/Human Resources
- Infinium Flexible Benefits
- Infinium General Ledger
- Infinium Payables Ledger
- Infinium Fixed Assets
- Infinium Accounts Receivable
- Infinium Purchasing
- Infinium Materials/Manufacturing Suite
- Any Custom iSeries File

AFTER EXPORT IS COMPLETED

- No iSeries (AS/400)
- No Infinium License
- No Infinium Maintenance
- No Ability to Process Data

TCI CREDENTIALS

- 30 Year Infor Infinium Partner
- Largest Infor Infinium Services Provider
- 1500+ Man Years of Infor Infinium Experience
- 60 Infor Focused Staff
- 250+ Infor Infinium Customers Serviced Since 1989
